MEMORANDUM FOR: SECOM Member  
Central Intelligence Agency

25X1

FROM: [redacted]  
Chairman

25X1

SUBJECT: Working Groups on Personnel Security R&D [redacted]

1. The primary objective of the series of symposia on Personnel Security and the Behavioral Sciences has been to seek ways to more accurately predict the security behavior of cleared individuals. The third symposium is being planned for 25-26 March 1985. At each of the previous sessions, I have discussed the need for the formation of one or more ad hoc working groups to formulate creative proposals for study on research and development. This is a necessary step in the process of transforming interesting discussions into meaningful action. [redacted]

2. SECOM member organizations have sponsored presentations or attendance at the two previous symposia by individuals whose expertise, imagination and enthusiasm would be invaluable to such working groups. I believe that among those individuals there are enough talented, imaginative people to form a working group (or even two) capable of recommending worthwhile projects for research in the personnel security area. The following personnel sponsored by your organization have been especially strong contributors to the symposium series:

25X1

3. I would appreciate it if you would recommend security officer or behavioral scientist volunteers to serve on one or more working groups. U.S. Government civilian or military personnel or appropriately cleared contractors should be considered for nominations.
